HUMAN PARTNERS AREN'T PERFECT

Problem

Human partners aren't perfect – you'll never find someone who ticks all of your boxes. Inevitably there'll be fights, there'll be tears, they'll forget your anniversary, choose their friends, their family and their dog over you. You'll waste hours of your life waiting for them to get ready and the way they chew their food will send shivers down your back – not the good kind. Their hair will appear – everywhere. At the same time, space will disappear, clothes will vanish, and your time will be spent choking down cauliflower steak at Obnoxious Orla's dinner parties or making small talk at Condescending Chris' book clubs. It's really not all it's cracked up to be.

Opportunity

AI companies are delving further and further into the replication of real people. AI dolls as companions are growing in popularity, stories and stats about the number of people choosing AI dolls as life companions are growing. And why wouldn't they? AI dolls act as the perfect life partner – with the ability to be exactly who you desire, they're 100% your type 100% of the time. An AI companion is the modern 'soulmate'.

Insight

An AI doll is programmed to make you happier than a human ever will.

Task

Create a piece of communications aimed at people looking for a long-term relationship (could be a single person of any age, a couple looking for a thurple, someone widowed) convincing them that an AI doll is the perfect life companion.

This brief is about letting you show off within a loose creative framework. Your application will be judged on your idea, and the potential of your execution.

The 2023 ICAD Upstarts Programme is brought to you with the generous support of BBH.

BBH is a full-service creative agency founded in 1982.

Our logo, the black sheep, represents the power of difference – because when the world zigs, we zag.

In 2022, we brought this philosophy to Ireland and opened the doors of BBH Dublin.
